

OVERVIEW & CURRENT WEBSITE

Where We Stand Today

Our public web presence is already live, fast, and handling everyday customer inquiries across Bahrain.

Flagship FMCG & Alsi Cola

Showcases our key beverage lines (Alsi Cola Original & Diet, Code Red, fruit juices) alongside groceries and hygiene supplies.

Carton vs. Single Unit Switch

Customers and cold store buyers can toggle between individual cans and wholesale carton rates instantly.

BH BenefitPay & WhatsApp Orders

Matches local Bahrain habits: quick BenefitPay QR payments and direct WhatsApp messaging for orders.

Mobile & Arabic Friendly

Fast and readable on smartphones, with an instant English/Arabic language toggle for local grocers.

A GROUNDED APPROACH TO GROWTH

STEP-BY-STEP

As a focused distributor in Bahrain, we do **not** need complex, expensive corporate software. Instead, we can gradually add useful features to our existing platform over time—only moving forward when the business needs it and the team is comfortable.

Realistic Roadmap Goal

Keep our costs low and build simple, practical tools that help our daily operations grow steadily.

PHASE 1 • RETAIL CUSTOMER EXPERIENCE

Customer Accounts & Order Tracking

A simple upgrade to give shoppers order history and clear delivery progress.

Quick Mobile Login

Customers sign in with their Bahrain mobile number and a fast SMS code. No passwords to forget.

Saved Bahrain Addresses

Save home or office addresses (Governorate, Block, Road, Building) for easy repeat ordering in seconds.

WHAT CUSTOMERS SEE: LIVE 5-STAGE ORDER PROGRESS

LIVE STATUS

1. Received

Order In

2. Confirmed

BenefitPay Checked

3. Packed

Warehouse Hub

4. In Van

Out for Delivery

5. Delivered

At Door

Why this helps our daily work

Customers can see their delivery status directly on their phone. This cuts down phone inquiries asking "where is my order?" and encourages repeat orders.

PHASE 2 • WHOLESALE & VAN DELIVERY SUPPORT

Cold Store Portal & Driver Stop List

Let regular baqalas place orders directly, and give drivers a clean stop checklist on their phone.

Baqala Wholesale Portal

Partner cold stores enter their CR number once and unlock special wholesale carton rates, reordering at their own convenience.

Driver Web Page (/driver)

Drivers open a clean mobile page on their phone showing their 10–15 daily delivery stops with store names and carton counts.

WHAT THE VAN DRIVER SEES ON HIS SMARTPHONE

DAILY DELIVERY LIST

1. Al Andalus Cold Store (Manama)

Order #1042 • 10 Cartons Alsi Cola Original

DELIVERED ✓

2. Hidd Express Baqala (Muharraq)

Order #1045 • 12 Cartons Diet + 5 Code Red

CURRENT STOP

3. Riffa Supermarket (Southern)

Order #1048 • 20 Cartons Assorted Drinks

PENDING

Why this helps our daily work

Replaces lost paper notes and disorganized WhatsApp chats. The driver knows exactly what needs to be delivered, and cold stores can request stock whenever they run low.

PHASE 3 • VAN SALES & DAILY RECONCILIATION

Daily Stock & Cash Reconciliation

Simple, foolproof checks when vans return to the warehouse at the end of the shift.

Morning vs. Evening Counts

Quickly record how many cartons left the warehouse in the morning and how many returned in the evening.

Cash & BenefitPay Settlement

Matches total cartons sold against cash handed over plus BenefitPay screenshots to ensure 100% balance.

SIMPLE END-OF-DAY VAN AUDIT (6:00 PM CHECK)

ZERO MISSING CRATES

100 Cartons

MORNING LOAD-OUT

15 Cartons

EVENING RETURN

85 Cartons

TOTAL SOLD

Cash Collected: 212.500 BHD

BenefitPay: 85.000 BHD

✓ **Audit Status: MATCHED**

Why this helps our daily work

Gives management complete clarity that every carton of Alsi Cola is accounted for before drivers wrap up their day.
No missing inventory, no cash shortfalls.

PHASE 4 • LONG-TERM OPERATIONS (WHEN READY)

Staff Records, Payroll & 10% VAT

Simple administrative automations introduced as the team and order volume expand.

CPR & Visa Expiry Alerts

Tracks employee CPR, driving licenses, and LMRA work permits with 60-day renewal warnings to avoid fines.

1-Click Bank Salary File (WPS)

Exports the exact Wages Protection System (SIF) file required by Bahrain banks (NBB, BBK, Ila, AUB) for monthly salaries.

Automatic 10% Tax Invoices

Generates compliant Bahrain tax receipts for cold stores showing DAS CR and VAT numbers automatically.

5-Minute NBR VAT Filing

Summarizes Input VAT on stock purchases vs. Output VAT on drink sales for effortless quarterly filing.

Why this helps our daily work

Keeps DAS Bahrain in full compliance with LMRA, Ministry of Labour WPS rules, and NBR VAT guidelines with minimal office overhead.

THE BOTTOM LINE

A Practical, Low-Risk Path Forward

Tailored specifically for our current size, with no rush and zero unnecessary software costs.

✓ Spread Out at Our Own Pace

Each phase is completely independent. We only move to the next phase when the business demands it and the team is ready.

✓ 0 BHD Monthly Software Fees

We avoid foreign software subscriptions (which cost 1,000+ BHD/month) by using our own lightweight web tools.

✓ Zero Disruption to Customers

Our current website stays active 24/7. Shoppers and buyers can continue browsing and ordering without any interruption.

✓ Tailored for Bahrain FMCG

Designed specifically around neighborhood cold stores, local van routes, BenefitPay, and Bahrain regulations.

Next Step for Discussion:

When the team is ready, we can explore starting with **Phase 1 (Customer Accounts & Order Status)** as a quiet, gradual upgrade. In the meantime, our current live website continues to serve customers and take wholesale inquiries across Bahrain smoothly.
