

Dar Al Baba Salam W.L.L.

Licensed Distributor of Alsi Cola — Kingdom of Bahrain

CURRENT FOUNDATION

OVERVIEW & TODAY'S PLATFORM

Where We Are Today: A Solid Digital Foundation

Our customer-facing web portal is already live, fast, and handling inquiries across Bahrain.

Flagship FMCG & Alsi Cola

Full product showcase featuring Alsi Cola, Code Red energy drinks, juices, groceries, and cleaning essentials.

Carton & Wholesale Switcher

Shoppers and cold store buyers can toggle between individual retail cans and bulk wholesale carton pricing instantly.

BH BenefitPay & WhatsApp Orders

Frictionless checkout matching local Bahrain payment habits with BenefitPay QR scan and instant WhatsApp dispatch.

Mobile-First & Bilingual

Works smoothly on iPhones and Android devices with instant English and Arabic toggle for local grocers.

THE NEXT STEP: FROM STOREFRONT TO FULL DISTRIBUTION SYSTEM

4 SIMPLE PHASES

Right now, our website is great for **displaying products and taking initial orders**. The proposed 4 phases below transform it into an **all-in-one business engine** that connects our warehouse, our cold store clients, our van drivers, and our office staff—without paying huge annual fees to software companies.

Management Objective

Upgrade our existing platform in 4 easy, self-contained steps so our sales, vans, and staff run on one simple system.

PHASE 1 • RETAIL CUSTOMER EXPERIENCE

Customer Accounts & Live Order Tracking

Give our Bahrain shoppers a modern delivery experience like Talabat or Amazon.

Simple Phone Login (SMS OTP)

No complicated passwords to forget.
Customers log in with their Bahrain mobile number via a quick verification code.

Saved Address Book

Save home or office addresses with Bahrain Governorate, Block, Road, and House number for 10-second repeat orders.

WHAT THE CUSTOMER SEES: LIVE 5-STAGE ORDER PROGRESS

LIVE TRACKER

1. Received

Order Placed

2. Confirmed

Payment Verified

3. Packed

Hidd Warehouse

4. In Van

Out for Delivery

5. Delivered

At Your Door

Why this matters for DAS Bahrain

Customers stop calling to ask "where is my drink order?". They see their delivery moving in real-time and can reorder their favorite Alsi Cola case in 1 click.

PHASE 2 • WHOLESALE & VAN DELIVERIES

Cold Store Portal & Driver Phone Manifest

Equip neighborhood baqalas to order 24/7 and give our drivers an easy mobile delivery checklist.

Baqala Wholesale Portal

Supermarkets and cold stores register with their Bahrain CR number to unlock discounted wholesale carton rates hidden from normal consumers.

Driver Mobile Module (/driver)

Van drivers open a simple web page on their phones showing their assigned stops for the day across Muharraq, Manama, and Riffa.

WHAT THE VAN DRIVER SEES ON HIS PHONE

TODAY'S VAN ROUTE

1. Al Andalus Cold Store (Manama)

Order #1042 • 10 Cartons Alsi Cola Original

DELIVERED ✓

2. Hidd Express Baqala (Muharraq)

Order #1045 • 15 Cartons Alsi Diet + 5 Code Red

CURRENT STOP

3. Riffa Supermarket (Southern)

Order #1048 • 25 Cartons Assorted Drinks

PENDING

Why this matters for DAS Bahrain

No more printed paper receipts blowing out of van windows. Cold stores can order cartons in the middle of the night, and drivers get instant electronic sign-offs.

PHASE 3 • VAN SALES PERFORMANCE

Daily Quotas & 100% Cash Reconciliation

Never lose track of stock or collected cash when vans return to the warehouse at 6 PM.

Daily Van Sales Targets

Set daily carton targets per van (e.g. 100 cases of Alsi Cola/day). Supervisors see target vs. actual sales live.

Driver Commission Ledger

Sales incentives and bonuses calculate automatically based on verified deliveries, motivating drivers to beat targets.

END-OF-DAY VAN AUDIT (6:00 PM RETURN)

ZERO STOCK SLIPPAGE

120 Cartons

MORNING LOAD-OUT

18 Cartons

EVENING RETURN

102 Cartons

VERIFIED SOLD

Cash Handed Over: 245.000 BHD Benefit Pay Received: 112.000 BHD ✓ **Audit Balance: 100% MATCH**

Why this matters for DAS Bahrain

Completely protects company revenue. If a van took out 120 cartons and brought back 18, the system ensures exactly 102 cartons worth of cash or Benefit Pay are deposited before the driver leaves.

PHASE 4 • HR, PAYROLL & BAHRAIN VAT

Staff Records, Bank Payroll & 10% Tax

Automate administrative paperwork so company management can focus on sales growth.

LMRA & Visa Expiry Alerts

Logs staff CPR, driver licenses, and work permits with automated 60-day renewal warnings to prevent government fines.

WPS Salary Bank File (SIF)

Calculates basic salaries, commissions, and GOSI deductions—then exports the official WPS file ready for NBB, BBK, Ila, or AUB.

Automated 10% NBR VAT Invoices

Generates compliant Bahrain tax invoices for every wholesale delivery, showing DAS CR and VAT numbers automatically.

Quarterly Tax Filing Export

Summarizes Input VAT on stock purchases vs. Output VAT on drink sales so filing with the National Bureau for Revenue takes 5 minutes.

Why this matters for DAS Bahrain

Guarantees 100% legal compliance with Bahrain LMRA, Ministry of Labour WPS wages protection, and NBR tax regulations without needing full-time outside consultants.

THE BOTTOM LINE

Why This Is the Smartest Path for DAS Bahrain

High operational power, zero costly software licenses, and complete control.

Business Area	Buying Heavy Software (SAP/Oracle)	DAS Unified Custom Engine
Yearly Cost	12,000 – 25,000 BHD every year	0 BHD yearly license fees
Cold Store Experience	Clunky desktop screens; grocers won't use it	Simple mobile WhatsApp & web ordering
Van Driver Ease	Requires expensive dedicated barcode scanners	Runs on any existing driver Android/iPhone

REQUEST FOR MANAGEMENT CLEARANCE: START PHASE 1

Starting **Phase 1 (Customer Login & Order Tracking)** requires **zero downtime** for the current website. The public will still be able to browse our Alsi Cola catalogue and place orders without interruption.
